

FRESH TROUT ANYONE? Patricia Lake, Pyramid Lake and the sparkling mountain streams, wending their way through Jasper Park, abound in this gourmet's delight. Try your luck—you may enjoy a dinner fit for a King.

CABIN INTERIORS are spaciouly styled, warmly finished in rustic knotty pine. Notice the breath-taking view that's yours from the bigger-than-usual window. Cabins are gas heated for comfort during cool mountain nights.

YOU HAVE A
LAKE AT YOUR
DOORSTEP AT . . .

Patricia Lake BUNGALOWS

JUST 3 MILES FROM JASPER
ON PATRICIA LAKE
AT THE FOOT OF
PYRAMID MOUNTAIN

THE SUMMER WEATHER at Jasper is warm with long sun-filled days. The air is exhilarating, fresh and zestful. Your holiday can be as restful or as active as you desire. You can lie in the sun and do nothing but dream, or fill your days with healthful activity from sun-up to sunset. The choice is yours at Jasper. Book your reservation, pack your bag and come to Patricia Lake Bungalows.

THIS IS YOUR VIEW

of Lake Patricia from your lakefront cabin: Tall blue-green spruce trees mirrored in the placid water which catches and reflects the rich blue sky in an artist's flash of color. Majestic Pyramid Mountain towers in the background, forming a natural backdrop for the exquisite scene. You have a front row seat for the brilliant mountain sunsets which tint everything in sight with vivid scarlet. And your Patricia Lake bungalow is close to highway, trails and mountain roads which lead to the world-famous beauty spots of Jasper National Park.

JASPER NATIONAL PARK is a photographer's delight. Here you are surrounded by the world's most beautiful scenery. Every day you will come upon scenic wonders which will set the shutter of your camera clicking.

MALIGNE LAKE AND VALLEY—No trip to Jasper is complete without a visit to Maligne Lake—famous throughout the world.

MIETTE HOT SPRINGS—If you enjoy hot spring swimming be sure to visit this health spa for a dip in the mineral waters.

MOUNT ROBSON—Its 13,000' height is the tallest in the Canadian Rocky Mountain Range. On a clear day even the peak is in view.

COLUMBIA ICEFIELD—Largest body of ice south of the Arctic. Covers approximately 150 square miles and drains into three great basins, feeding seven glaciers.

WILD LIFE—Jasper National Park is one of the greatest wildlife sanctuaries on the continent. Many animals can be seen from park trails and often from highways. Keep your camera handy for thrilling shots.

Mysterious Tonquin Valley, Mount Edith Cavell and Angel Glacier are also nearby. Remember there is always another mountain, another stream, another canyon to delight your eyes and your heart when you explore Jasper National Park.
